ADACTA

Microsoft Dynamics AX - **Effective and Proven Integration Framework for IBM Maximo**

A predefined and proven integration framework for identifying the integration points between the two systems.

- + **Improve work planning and analysis** while eliminating the need for duplicate data
- + Real-time data synchronization and updates save time and reduce the risk for data entry errors
- + **Native built-in connectivity with Master Data Management** helps increase the consistency of your data across your organization
- + Visualize and analyze your data and forecast with broad self-service BI capabilities
- + Work together in sync across Microsoft Dynamics products (CRM and AX) and Microsoft's collaboration tools (Office 365)

Improve work planning and analysis while eliminating the need for data duplication
